Making Health Care Great (Again ;) Outline

- Impact of Consumer Cost-sharing
- Clinical Nuance
- Value-Based Insurance Design
- Translating Research into Policy
- Addressing Unnecessary Care
- Aligning Provider and Consumer Incentives

Getting to Health Care Value Shifting the discussion from "How much" to "How well"

- Innovations to prevent and treat disease have led to impressive reductions in morbidity and mortality
- Regardless of these advances, cutting spending is the principle focus of health care reform discussions
- Despite unequivocal evidence of clinical benefit, substantial underutilization of high-value services persists across the entire spectrum of clinical care
- Attention should turn from *how much* to *how well* we spend our health care dollars

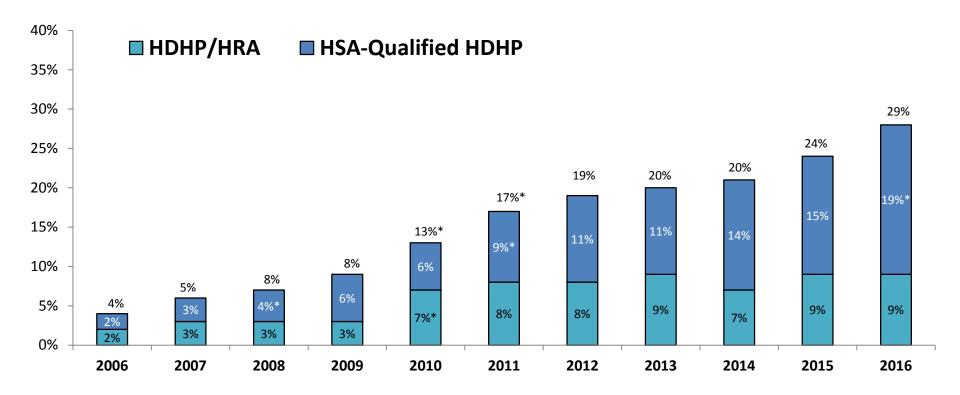

Getting to Health Care Value Shifting the discussion from "How much" to "How well"

- Moving from a volume-driven to value-based system requires a change in both how we pay for care and how we engage consumers to seek care
- Much of the focus is on alternative payment models
- We also must better engage consumers enhance efficiency
- **Consumer cost sharing** is a common and important policy lever

Percentage of Covered Workers Enrolled in an HDHP/HRA or an HSA-Qualified HDHP, 2006-2016

* Estimate is statistically different from estimate for the previous year shown (p < .05).

NOTE: Covered Workers enrolled in an HDHP/SO are enrolled in either an HDHP/HRA or a HSA-Qualified HDHP. For more information, see the Survey Methodology Section. The percentages of covered workers enrolled in an HDHP/SO may not equal the sum of HDHP/HRA and HSA-Qualified HDHP enrollment estimates due to rounding.

Lowering Out-of-Pocket Costs Is Top Health Care Priority

Should each of the following things Donald Trump and the next Congress might do when it comes to health care be a top priority, an important but not a top priority, not too important, or should it not be done?

Top priority

Important but not a top priority

Not too important

Should not be done

Lowering the amount individuals pay for health care	67%			26%		
Lowering the cost of prescription drugs	61%			28%	6 6%	
Dealing with the prescription painkiller addiction epidemic	45%		389	6	9% 5	96
Repealing the 2010 health care law	37%	21%	21% 7% 31%			
Decreasing how much the federal government spends on health care over time	35%	33%	33% 9%		18%	
Decreasing the role of the federal government in health care	35%	30%		9%	20%	

NOTE: Question wording abbreviated. See topline for full question wording. Don't know/Refused responses not shown. SOURCE: Kaiser Family Foundation Health Tracking Poll (conducted December 13-19, 2016)

Health savings accounts may flourish under Trump

 Health Savings Accounts coupled with High Deductible Health Plans are a top policy priority of the Trump Administration and Congressional Republicans

"Far Better, Far Less Expensive" Next Generation Plan Option 1

"It says our health insurance is being replaced by a series of tweets calling us losers." **"Far Better, Far Less Expensive" Next Generation Plan Option 2: "Clinically Nuanced" Cost-Sharing**

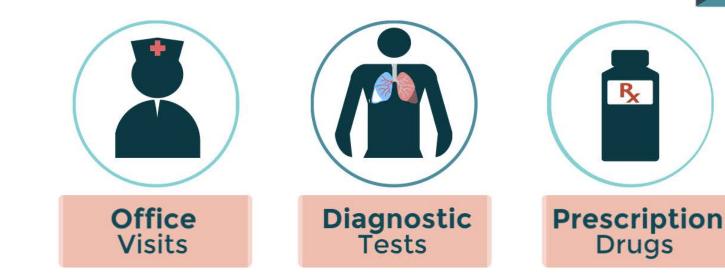

> A "smarter" cost-sharing approach that encourages consumers to use more high value services and providers, but discourages the use of low value ones

Understanding CLINCAL NUANCE

Clinical Services Differ in the Benefit Produced

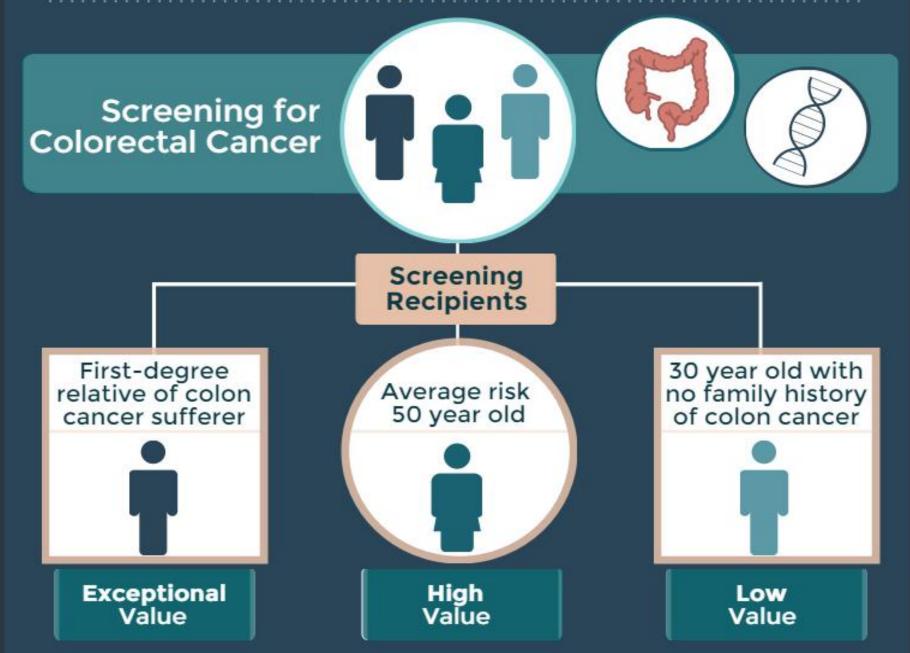

The Clinical Benefit Derived From a Service Depends On...

#2

Clinical benefit depends on who receives it

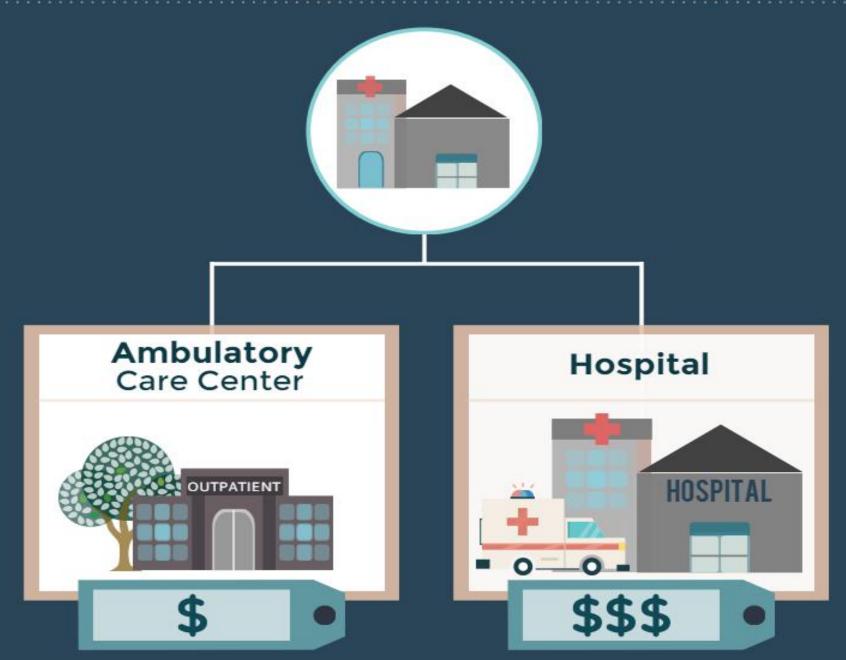

who provides it...

Clinical benefit depends on where care is provided

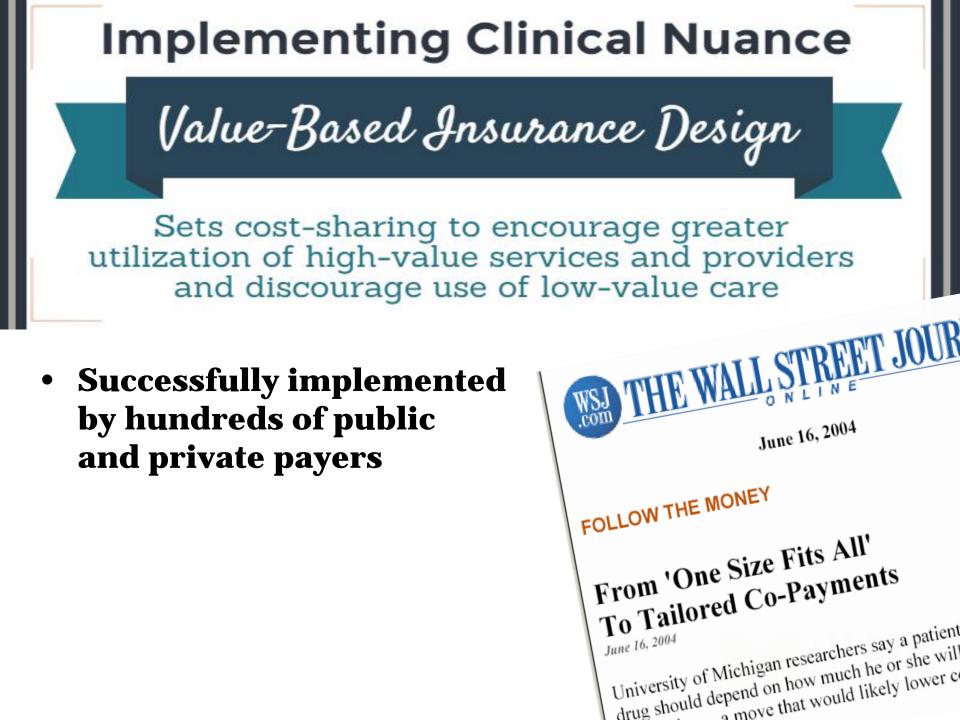

Clinical Nuance: Key Takeaway

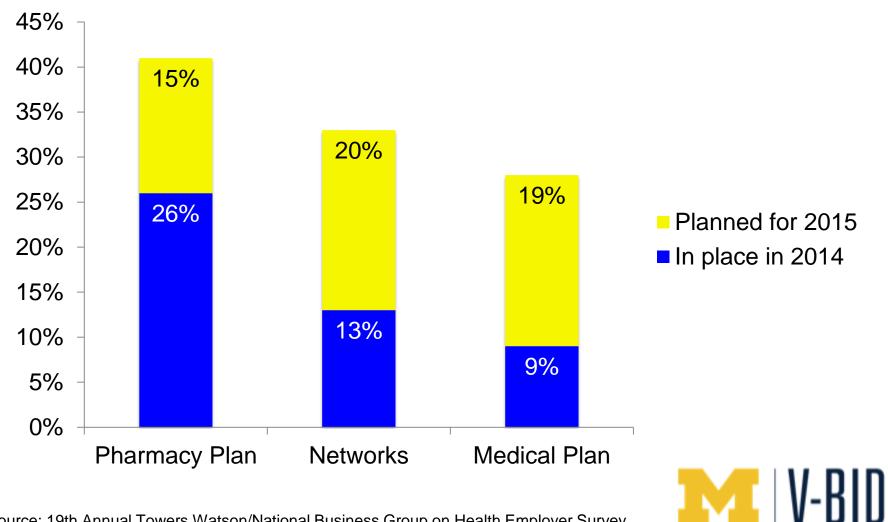

V-BID Momentum Continues

Translating Research into Policy: Implementing V-BID in Medicare

Why not lower cost-sharing on high-value services?

The anti-discrimation clause of the Social Security Act does not allow clinically nuanced consumer cost-sharing. "providers may not deny, limit, or condition the coverage or provision of benefits"

H.R.2570/S.1396: Bipartisan "Strengthening Medicare Advantage Through Innovation and Transparency"

- Directs HHS to establish a V-BID demonstration for MA beneficiaries with chronic conditions
- HR 2570: Strengthening Medicare Advantage Through Innovation and Transparency

114TH CONGRESS 1ST SESSION H.R.2570

IN THE SENATE OF THE UNITED STATES

JUNE 18, 2015

President POOL

 Passed US House with strong bipartisan support in June 2015

Received; read twice and referred to the Committee on Finance

AN ACT

To amend title XVIII of the Social Security Act with respect to the treatment of patient encounters in ambulatory surgical centers in determining meaningful EHR use, establish a demonstration program requiring the utilization of Value-Based Insurance Design to demonstrate that reducing the copayments or coinsurance charged to Medicare beneficiaries for selected high-value prescription medications and clinical services can increase their utilization and ultimately improve clinical outcomes and lower health care expenditures, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Strengthening Medicare Advantage through Innovation and Transparency for Seniors Act of 2015".

SEC. 2. TREATMENT OF PATIENT ENCOUNTERS IN AMBULATORY SURGICAL CENTERS IN DETERMINING MEANINGFUL EHR USE.

CMS Announces Medicare Advantage Value-Based Insurance Design Model Test

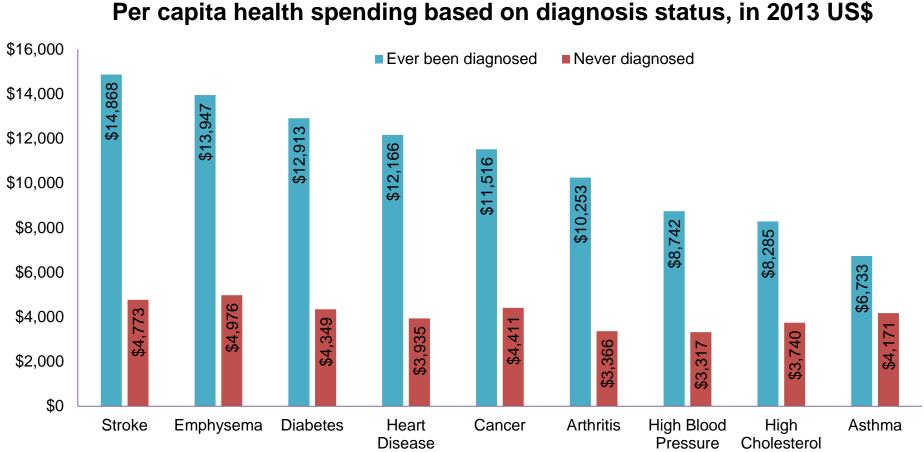

A 5-year demonstration program will test the utility of structuring consumer cost-sharing and other health plan design elements to encourage patients to use high-value clinical services and providers.

Value-based insurance coming to millions of people in Tricare

By Shelby Livingston | December 27, 2016

Under a provision in the <u>National Defense Authorization Act</u>, the TRICARE program for current and retired members of the military and their dependents will test V-BID in a pilot program.

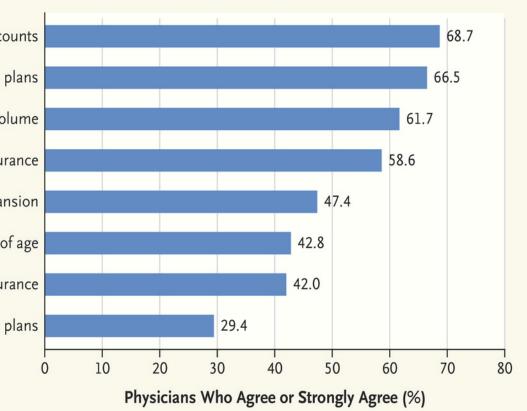

By January 2018, the pilot will assess whether the V-BID approach helps people with certain conditions stick to their medications, get care that meets specific quality standards, and have better outcomes and a better experience.

http://www.irs.gov/pub/irs-drop/n-04-2.pdf

IRS Safe Harbor Guidance allows zero consumer cost-sharing for specific preventive services

INCLUDING:

✓ periodic health evaluations/screenings
✓ routine prenatal and well-child care
✓ child and adult immunizations
✓ tobacco cessation programs
✓ obesity weight-loss programs

www.irs.gov/pub/irs-drop/n-04-23.pdf

However, IRS guidance requires that services used to treat "existing illness, injury or conditions" are not covered until the minimum deductible is met

As HSA-HDHP enrollees with existing conditions are required to pay out-of-pocket for necessary services, they utilize less care, potentially resulting in poorer health outcomes and higher costs

Potential Solution: High Value Health Plan

Flexibility to expand IRS "Safe Harbor" to allow coverage of additional evidence-based services prior to meeting the plan deductible Invited Commentary

Precision Benefit Design—Using "Smarter" Deductibles to Better Engage Consumers and Mitigate Cost-Related Nonadherence

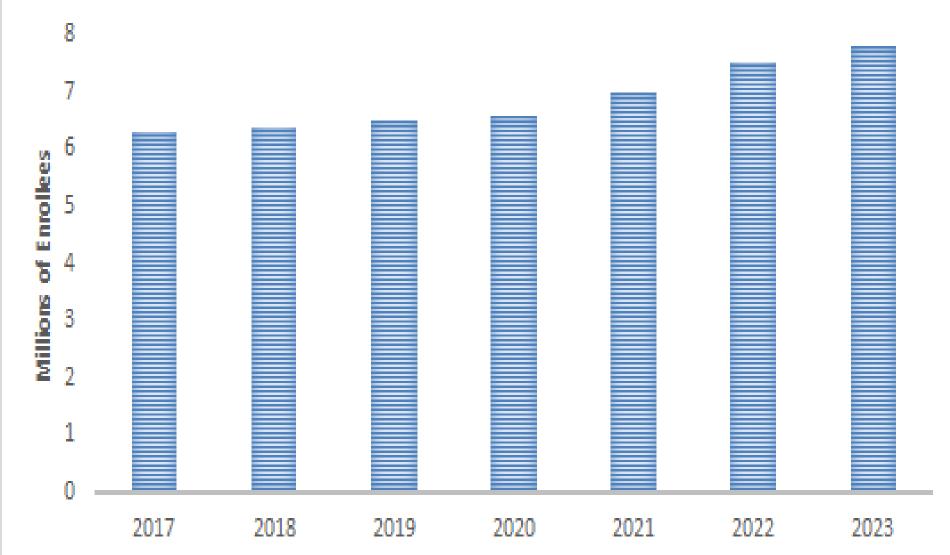

A. Mark Fendrick, MD; Michael E. Chernew, PhD

"To enable the continued growth of HSA-HDHPs, insurers need flexibility to provide pre-deductible coverage for high-quality services across the spectrum of clinical care."

Projected HVHP Uptake in the Employer Market

H.R. 5652: "Access to Better Care" Act

Are high-value health plans the wave of the future?

January 25, 2017

By Tracey Walker

- Pre-deductible coverage of additional evidencebased services to leads to better clinical outcomes
- Aligns with provider payment reform incentives
- Lowers premiums compared to most PPO and HMO plans
- Substantially reduces total health care spending
- Provides millions of Americans a plan option that better meets their clinical and financial needs

Putting Innovation into Action: Translating Research into Policy

- Patient Protection and Affordable Care Act
- Medicare
- TRICARE
- HSA-qualified HDHPs
- High Cost Drugs
- State Health Reform

Motivation for "Dynamic" Benefit Design

- The natural history of chronic conditions often necessitate multiple therapies to achieve desired clinical outcomes
 - Health plans frequently require certain steps be performed before access to additional therapies
 - Increasing out-of-pocket costs for alternative therapies may prevent consumers from accessing recommended treatment

RIGHT DRUG. RIGHT PERSON. RIGHT TIME. RIGHT PRICE.

REWARD THE GOOD SOLDIER

RIGHT DRUG. RIGHT PERSON. RIGHT TIME. RIGHT PRICE.

A benefit design that lowers consumer cost-sharing for those who diligently follow the required steps for their condition, but require an alternative option

Reward the Good Soldier A Dynamic Approach to Consumer Cost-sharing

Commitment to established policies that encourage lower cost, first-line therapies

Acknowledgment that clinical scenarios may require multiple treatment options

Reduces cost-related non-adherence

Enhances access to effective therapies when clinically appropriate

RIGHT DRUG. RIGHT PERSON. RIGHT TIME. RIGHT PRICE.

Getting to Health Care Value Focus Cost-Sharing Increases on Unnecessary Care

- It is counter-intuitive to impose high levels of cost-sharing on those services that are identified as health plan quality measures
- Thus, instead of imposing blunt, price-driven cost-sharing increases on all services, consider high cost sharing on only those services that do not make people healthier

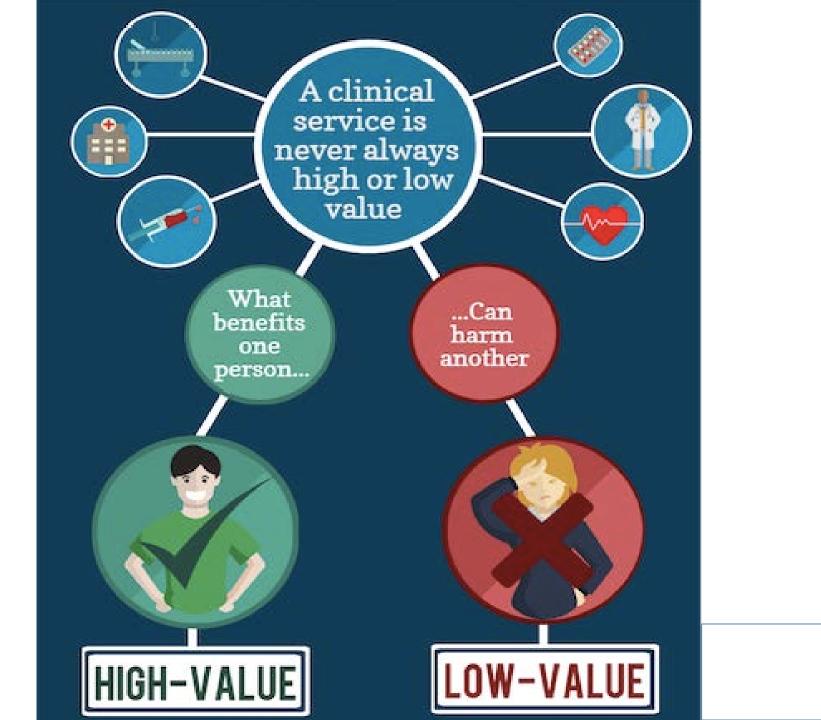

Identifying and Removing Unnecessary Care

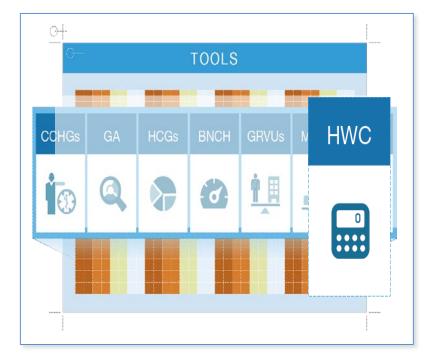

- Key stakeholders—including a large number of medical professional societies—agree that discouraging consumers from using specific lowvalue services must be part of the strategy
- Unlike delay for cost offsets from improved quality, savings from waste elimination are immediate and substantial
- Identification, measurement, and removal of unnecessary care has proven challenging

Identifying and Removing Unnecessary Care: Milliman Health Waste Calculator

- Collaboration between Milliman and V-BIDHealth
- Measure potentially unnecessary services
- Analyze cost savings potential
- Discover ways to improve quality and patient safety
- Generate actionable reports and summaries for use across your organization

Aligning Payer and Consumer Incentives: As Easy as Peanut Butter and Jelly

Many "supply side" initiatives are restructuring provider incentives to move from volume to value:

- Medical Homes
- Accountable Care
- Bundled Payments
- Reference Pricing
- Global Budgets
- High Performing Networks
- Health Information Technology

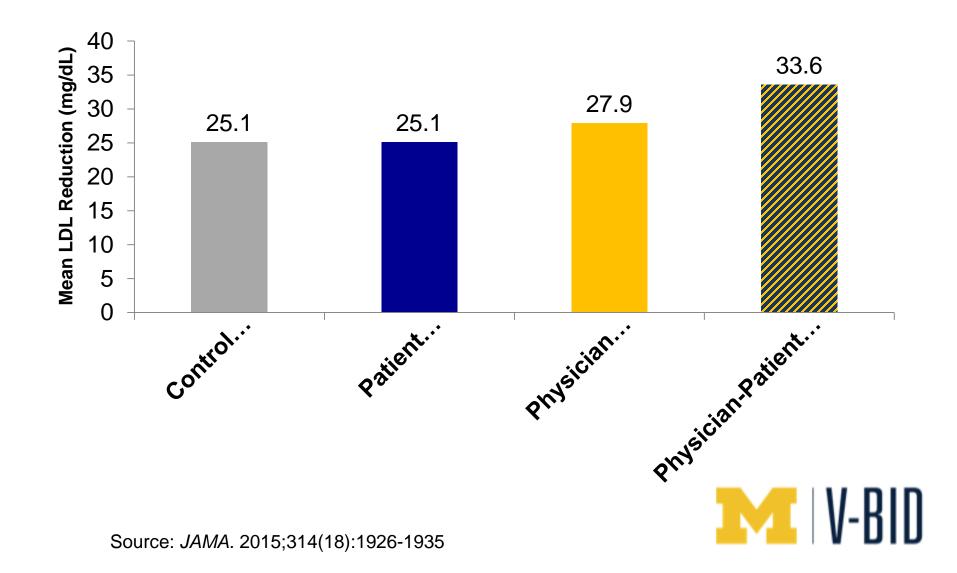

Aligning Payer and Consumer Incentives: As Easy as Peanut Butter and Jelly

Unfortunately, some "demand-side" initiatives – including consumer cost sharing - discourage consumers from pursuing the "Triple Aim"

Impact of Aligning Physicians and Patients: Financial Incentives to Lower Cholesterol

Aligning Payer and Consumer Incentives: As Easy as PB & J

The alignment of clinically nuanced, providerfacing and consumer engagement initiatives is a necessary and critical step to improve quality of care, enhance patient experience, and contain cost growth
