

# Smarter Health Care Coalition

---

Smarter Health Care Coalition Members,

We are thrilled to report that today, **Senators John Thune (R-SD) and Tom Carper (D-DE) reintroduced the Coalition supported Chronic Disease Management Act (CDMA) in the United States Senate**. The [legislation](#) builds off the [version](#) of the CDMA introduced by the Senators in July 2019 and utilizes the criteria established in last year's Treasury guidance to determine what constitutes preventative services. To read the Senate's joint press release on the introduction, please click [here](#). In addition to Thune and Carper, we also thank Senators Kevin Cramer (R-ND), Martha McSally (R-AZ), Kyrsten Sinema (D-AZ), and Tina Smith (D-MN) for cosponsoring the legislation.

We will continue to monitor the events surrounding the bill's introduction, and we look forward to discussing this exciting development at tomorrow's membership meeting.

Have a great evening,

Katy, Ray, and Andrew

Coalition Co-Directors
