Health Care Costs Are a Top Issue For Purchasers and Policymakers: Solutions must protect consumers, reward providers and preserve innovation

- Innovations to prevent and treat disease have led to impressive reductions in morbidity and mortality
- Irrespective of remarkable clinical advances, cutting health care spending is the main focus of reform discussions
- Underutilization of high-value care persists across the entire spectrum of clinical care leading to poor health outcomes
- Our ability to deliver high-quality health care lags behind the rapid pace of scientific innovation

Moving from the Stone Age to the Space Age: Change the health care cost discussion from “How much” to “How well”

- Everyone (almost) agrees there is enough money in the US health care system; we just spend it on the wrong services and in the wrong places
- Moving from a volume-driven to value-based system requires a change in both how we pay for care and how we engage consumers to seek care
- The most common patient-facing strategy - consumer cost-sharing – is a ‘blunt’ instrument, in that patients pay more out of pocket for **ALL** care regardless of clinical value

Health Plan Deductibles have grown more than ten times faster than inflation over the last decade

Percent of Americans With a Deductible

Average Deductible by Plan Type in 2019

OPINION
GUEST ESSAY

What's Wrong With Health Insurance? Deductibles Are Ridiculous, for Starters.

July 7, 2022

Americans Do Not Care About Health Care Costs;
They Care About **What It Costs Them**

Patient Worry About Out-of-Pocket Healthcare Costs at All-Time High

A report from the Commonwealth Fund noted that patients are not confident they can afford high out-of-pocket healthcare costs.

Inspiration (Still)

“

I can't believe you had to spend a million dollars to show that if you make people pay more for something, they will buy less of it.

”

- Barbara Fendrick (my mother)

Effects of Increased Patient Cost Sharing on Socioeconomic Disparities in Health Care

*Michael Chernew, PhD¹ Teresa B. Gibson, PhD² Kristina Yu-Isenberg, PhD, RPh³
Michael C. Sokol, MD, MS⁴ Allison B. Rosen, MD, ScD⁵, and A. Mark Fendrick, MD⁵*

- Cost-sharing worsens disparities and adversely affect health, particularly among economically vulnerable individuals and those with chronic conditions⁸

Alternative to “Blunt” Consumer Cost Sharing: Value-Based Insurance Design (V-BID)

- Sets consumer cost-sharing on clinical benefit – not price
- Little or no out-of-pocket cost for high value care; higher cost sharing for no/low value care
- Successfully implemented by hundreds of public and private payers
 - Focus typically on chronic disease medications:
 - Diabetes
 - Cardiovascular disease
 - Asthma
 - Mental health disorders

PHARMACEUTICALS & MEDICAL TECHNOLOGY

Eliminating Medication Copayments Reduces Disparities In Cardiovascular Care

ACA Sec 2713: Selected Preventive Services be Provided without Cost-Sharing

- Receiving an A or B rating from the United States Preventive Services Taskforce (USPSTF)
- Immunizations recommended by the Advisory Committee on Immunization Practices (ACIP)
- Preventive care and screenings supported by the Health Resources and Services Administration (HRSA)

Texas Judge Finds ACA Requirement for Preventive Services Without Cost Sharing Invalid

- Several outstanding questions remain, but it is possible that this ruling will mean that employers will no longer have to provide first-dollar coverage for the 52 services that have received an “A” or “B” rating from the U.S. Preventive Services Task Force
- This requirement benefitted almost 152 million people in 2020 and led to increases in cancer screening and vaccinations, improved access to contraceptives, and earlier detection and treatment of chronic health conditions, including hypertension, depression, high cholesterol and diabetes.

Percentage of Employers That Would Impose Cost Sharing for Preventive Services if Allowed by Law

Source: Employee Benefit Research Institute (EBRI) Pulse Survey of Health Benefits Decision Makers, n=25, representing over 600,000 employees.

Medicare Advantage V-BID Model Test

Reduced cost-sharing permissible for:

- high-value services
- high-value providers
- enrollees participating in disease management or related programs
- additional supplemental benefits (non-health related)

Wellness and Health Care Planning

Advanced care planning

Incentivize better health behaviors

Rewards and Incentives

\$600 annual limit

Chronic Disease Management Act of 2021: Expands Services and Drugs for Chronic Conditions Classified as Preventive Care

117TH CONGRESS
1ST SESSION

S. 1424

To amend the Internal Revenue Code of 1986 to permit high deductible health plans to provide chronic disease prevention services to plan enrollees prior to satisfying their plan deductible.

IN THE SENATE OF THE UNITED STATES

APRIL 28, 2021

Mr. THUNE (for himself and Mr. CARPER) introduced the following bill; which was read twice and referred to the Committee on Finance

A BILL

To amend the Internal Revenue Code of 1986 to permit high deductible health plans to provide chronic disease prevention services to plan enrollees prior to satisfying their plan deductible.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Paying for More Generous Coverage of High Value Care: Reduce Spending on Low Value Care

- Increase premiums – politically not feasible
- Raise deductibles and copayments – ‘tax on the sick’
- Reduce spending on low value care

**\$345
BILLION**

Examples include:

Vitamin D
screening tests

Diagnostic tests before
low-risk surgery

PSA screening for men
70 and older

Branded drugs when identical
generics are available

Low-back pain imaging
within 6 weeks of onset

Low-value care mitigation represents an opportunity for States to improve health care quality and further health equity while reducing spending

- The provision of low-value care is associated with emotional, physical, and financial harm, which can disproportionately affect people of color.
- “Double jeopardy:” minority patients may receive less effective care and more low value care.
- Annual spending on health care waste is estimated in the hundreds of billions of dollars;
 - Increasing pressure that health spending imparts on state budgets may make *states uniquely positioned* to act on low-value care.

Identifying and Measuring Unnecessary Care: Milliman Health Waste Calculator

- Uses claims to measure potentially unnecessary services
- Analyze cost savings potential
- Discover ways to enhance equity, improve quality and patient safety
- Generate actionable reports and summaries

Utilization and Spending on Low-Value Medical Care

State APCD Reports

VOL 1: CO, ME, VA, WA

VOL 2: CO, CT, UT, WI

Tools are available to measure utilization of, and spending on, low value care.

Billions \$ are spent annually on high volume services that are frequently used in low value clinical settings

Patients paid a substantial amount out of pocket on low value services.

Reducing unnecessary expenditures can fund promising state-wide interventions to expand coverage, enhance equity, and improve health

Policy Options to Reduce Low Value Care: Implement ACA Sec 4105

SEC. 4105. EVIDENCE-BASED COVERAGE OF PREVENTIVE SERVICES IN MEDICARE.

(a) **AUTHORITY TO MODIFY OR ELIMINATE COVERAGE OF CERTAIN PREVENTIVE SERVICES.**—Section 1834 of the Social Security Act (42 U.S.C. 1395m) is amended by adding at the end the following new subsection:

“(n) **AUTHORITY TO MODIFY OR ELIMINATE COVERAGE OF CERTAIN PREVENTIVE SERVICES.**—Notwithstanding any other provision of this title, effective beginning on January 1, 2010, if the Secretary determines appropriate, the Secretary may—

“(1) modify—

“(A) the coverage of any preventive service described in subparagraph (A) of section 1861(ddd)(3) to the extent that such modification is consistent with the recommendations of the United States Preventive Services Task Force; and

“(B) the services included in the initial preventive physical examination described in subparagraph (B) of such section; and

“(2) provide that no payment shall be made under this title for a preventive service described in subparagraph (A) of such section that has not received a grade of A, B, C, or I by such Task Force.”.

(b) **CONSTRUCTION.**—Nothing in the amendment made by paragraph (1) shall be construed to affect the coverage of diagnostic or treatment services under title XVIII of the Social Security Act.

HHS granted authority to not pay for USPSTF ‘D’ Rated Services

Policy Options to Reduce Low Value Care: Implement ACA Section 4105 which grants HHS authority to not pay for USPSTF 'D' Rated Services

Examples

Prostate cancer screening ≥ 70 years

Cervical cancer screening > 65 years

Colon cancer screening >85 years

Cardiovascular screening in low risk patients

Asymptomatic bacteriuria screening

COPD screening

Vitamin D to prevent falls among older women

Annual Use and Cost of Seven Grade D Services Among Medicare Enrollees

Total Annual Count:

31 million

Total Annual Costs:

\$478 million

V-BID X: Expanding Coverage of Essential Clinical Care Without Increasing Premiums or Deductibles

Clinically driven plan designs, like **V-BID X**,
reduce spending on **low-value care**

...creating headroom to reallocate spending
to **high-value services** without increasing
premiums or deductibles

CMS promotes value-based insurance design in final payment notice for 2021

Much of CMS's framework—including a list of high-value services that insurers could cover with little no impact on premiums but better care incentives—comes from the [University of Michigan's Center for Value-Based Insurance Design](#). The list includes a number of the same preventive care benefits that can be newly provided by a high-deductible health plan paired with a health savings account on a pre-deductible basis under [Treasury guidance](#) from July 2019. CMS also notes that PrEP, an HIV prevention medication, must [soon be covered](#) without cost-sharing by all non-grandfathered private health plans (including individual, small group, large group, and self-insured plans).

V-BID X: Enhancing Access and Affordability to Essential Clinical Services in Addition to COVID-19 Related Care

TABLE 5 – HIGH AND LOW VALUE SERVICES AND DRUG CLASSES

High-Value Services with Zero Cost-Sharing
Glucometers and testing strips
LDL testing
Hemoglobin A1C testing
Cardiac rehabilitation
INR testing
Pulmonary rehabilitation
Peak flow meters
Blood pressure monitors

V-BID X: Enhancing Access and Affordability to Essential Clinical Services in Addition to COVID-19 Related Care

Specific Low-Value Services Considered

Spinal fusions

Vertebroplasty and kyphoplasty

Vitamin D testing

Proton beam for prostate cancer

Commonly Overused Service Categories with Increased Cost-Sharing

Outpatient specialist services

Outpatient labs

Exchanges Using V-BID X Principles to Enhance Equity

- California
- Colorado
- Maryland
- Massachusetts
- District of Columbia

V-BID Elements Adopted to Achieve Equity in Health Insurance Coverage

Diabetes - 01/01/23

Pediatric mental and behavioral health - 01/01/24

Using V-BID to Enhance Access to Essential Clinical Services, Reduce Low Value Care and Enhance Equity

- Expand pre-deductible coverage/reduce consumer cost-sharing on essential services
- Identify, measure and reduce low-value care to pay for more generous coverage of high-value care
 - Start with USPSTF D Rated Services
- Implement clinically-driven plan payment reform, technologies and benefit designs (i.e., V-BID X) that increase use of high-value services and deter low value care

Thank you
